

## Double Rainbow Rest and Refresh(er): Logo Competition

### Background

- Both LGBTQ+ and neurodiverse communities use the rainbow as a symbol
- Gilbert Baker chose the rainbow to celebrate the beauty of the different identities of LGBTQ+ people coming together
- The infinity rainbow symbol, and other rainbow symbols, are used to represent pride and inclusion for neurodiverse people
- As Freshers/Welcome Week events can sometimes have a lot of sensory input, we wanted to create a 'low stim,' wellbeing-focused event for both communities (and anyone seeking a calmer environment!)
